EDUCATION

JAIN (Deemed-to-be University)

Master of Computer Applications (MCA)

Bengaluru, Karnataka

2025 – 2027

Bhilai Institute of Technology, Durg

B.Voc in Software Development

Chhattisgarh, India

2021 – 2024

SKILLS

Programming Languages: JavaScript, Dart

Development: Node.js, Express.js, REST APIs, HTML5, CSS3, Flutter, React.js, Bootstrap

Databases: MySQL, MongoDB, Firebase

Cloud & DevOps: AWS (VPC, EC2, S3, CloudWatch, IAM, SNS, ALB, NAT Gateway), Netlify

Tools & Platforms: Git, GitHub, Postman, WSL2, Linux

EXPERIENCE

Freelance Frontend Developer

Frontend Developer

Remote

6 months

- Designed and developed a responsive UI using React.js, Bootstrap, and CSS for a client-facing web application.
- Deployed the application on Netlify, ensuring smooth performance and fast global content delivery.
- Implemented dynamic menu display, order tracking, and real-time updates using Formspree and Google Sheets integration.
- Optimized website performance and responsiveness, achieving a 20% reduction in page load time.
- Tech Stack:** React.js, Formspree, Bootstrap, Google Sheets, Netlify

PROJECTS

CarbonSense: Carbon Footprint Calculator | [GitHub](#)

- Developed a Flutter mobile application to help users monitor daily carbon emissions and understand the impact of their behaviors on ecosystems, promoting sustainable lifestyle practices.
- Integrated real-time air quality data via RESTful API for location-aware environmental insights.
- Implemented behavioral analysis to provide personalized eco-friendly suggestions and daily sustainability tips.
- Engaged users through gamified challenges, quizzes, and a rewards system to encourage consistent usage.
- Tech Stack:** Flutter, Firebase, RESTful API

Product Scanner for D-Mart | [GitHub](#)

- Developed a barcode scanner application using Flutter to scan product barcodes and retrieve product information in real time.
- Implemented camera access and real-time barcode detection using the Barcode_Scanner library for quick and accurate product scanning.
- Fetches product details from a Firebase-backed database upon successful scan, improving checkout efficiency.
- Designed a clean, user-friendly UI to enhance the scanning experience for retail customers.
- Tech Stack:** Flutter, Firebase, Barcode_Scanner library

CERTIFICATIONS

Postman API Fundamentals Student Expert

The Linux Command Line Bootcamp: Beginner To Power User

AWARDS & ACHIEVEMENTS

Hack The Space – Postman Track Winner: Won the Postman track at the Hack The Space hackathon, demonstrating expertise in API design and integration.
